RE : BFBA CONSULTANTS (PTY) LTD – RE-STRUCTURING

The company has now been providing services in our areas of competence for SIXTY years. From the small beginning in Johannesburg in 1955, the company now has representation in:

- Johannesburg
- Cape Town
- Durban
- Pietermaritzburg

During the last 60 years there have been many changes not only in the Consulting Industry, but among Built Environment Professionals, the Building Industry and of course South Africa in general. At our recent AGM, a new strategy and course for the company has been proposed and we are at implementation stage. This allows for each of the various branches / sections to be represented individually and trade for their own account.

How much everything changes and how much everything remains the same! What does this mean to the services we have been providing? We anticipate that these will continue without interruption, with the possible exception that we will be asking for your indulgence to address the issues regarding particular projects directly with the persons involved. There will also be some administrative functions that will be distributed, rather than centralised.

We look forward to interacting with all our Clients, Colleagues and Friends as we have since the formation of the company as we celebrate the past 60 years.

Regards

R THOMAS
